OUR TEAM *Says*

Minnesota Transitions Charter School is dedicated to finding and developing the best staff in the state. Here are a few things our team want you to know about working here.

"When I started working at MTCS the first thing I heard repeated from all the people I met was, MTS is a family. I am part of this awesome family!" *Elementary Teacher*

"Teachers have leadership positions." *Elementary Teacher*

"Our class sizes are usually smaller than traditional public schools, allowing us to meet our students more frequently 1:1 and in small groups. We also get to know the families better, with fewer students." *Elementary Teacher*

"It really cool to see a bigger vision being built day by day." *Secondary Teacher*

"We truly make a difference in children's lives every day! What job could be better than that?!" *Elementary Teacher*

"I have learned that our administration is very supportive of its teachers and staff. We are always getting the latest and greatest opportunities for professional development. The administration gives us grace and flexibility to meet us where we are at as best as they can. I like that MTS Secondary is a school that will also meet students where they are at and are flexible with how they can support them." *Secondary Counselor*

"I love working in a school where I am so valued and have as much agency as I do make decisions about curriculum and learning." *Secondary Teacher*

"The students are the reason why I show up every day. I love the flexible working environment and also that we are creative in the way that we meet the needs of all of our students. We have teachers who meet students where they are at, a support team that is busy making sure students are doing what they need to do to be successful, and families that choose MTS to educate their children. We are a beautiful school community and I am excited in the future of MTS and the students!" *Social Worker*

"At MTCS you are given the opportunity to facilitate dramatic change in the individual lives of students and, in turn, profoundly improve the trajectory of entire communities. This cannot happen without exceedingly high expectations for all stakeholders (teachers, parents, students). Parents chose our schools for these reasons and we are committed to getting them extraordinary results for their children. Every day is a challenge-- but that is essentially why I chose to be here-- because I love being part of a community who takes on hard work BECAUSE it is hard. It's important for me to be at a place where I can make an impact every day, there are always opportunities to learn and grow Working at MTCS is deeply rewarding, especially for those with a passion for social justice."

Teacher

"I can bring my true authentic self here."

Social Worker

"We are supportive and are there for each other."
